As a specialist we stand for leading-edge expertise, innovative concepts and solutions as well as for superior project quality and results.

Working Student Green Value Chain Strategy & Transformation (f/m/d)

What's your future business?

- ▶ You will develop and expand our sustainable offerings, regarding strategy, value chain management, and green transformation
- ▶ You will assess trends and drivers in sustainability, e.g., GHG emissions, zero-carbon and zero-waste strategies.
- ▶ You will join an internal project for carbon footprinting, reporting, and reduction measure implementation
- ▶ You will acquire exciting insights into an international consultancy
- ▶ There is the possibility of a subsequent collaboration after completion of your studies

Who are you?

- ▶ Ongoing master's degree in a business-related course of study, e.g., business administration, supply chain/operations management, sustainability management, information management, or industrial engineering
- ▶ Desire to combine and drive sustainability and supply chain management
- ▶ Analytical thinking, client focus and pleasure when working in an international team
- ▶ Very good communication and presentation skills in German and English
- ▶ Willingness to work as a working student for at least 6 months

Locations: Cologne, Mannheim, Munich, Hamburg

What do we believe in? Triggering innovation by collaboration – this is our mission. Consultancy is people business and knowledge is key. That is why we value our employees as much as our clients. Together, we develop skills mutually matching our visions and ideas by constantly learning, growing and innovating. CAMELOT colleagues take responsibility from the moment they join us. Entrepreneurial attitude is as important to us as strong teamwork, knowledge sharing and corporate social responsibility.

Strategy to Results. CAMELOT Management Consultants is the globally leading consulting specialist for value chain management in the process, consumer product goods and manufacturing industries. As a specialist we stand for leading-edge expertise, innovative concepts and solutions as well as for superior project quality and results.

Junior Consultant Industrial Manufacturing & Digital Transformation (f/m/d)

What's your impact?

- ▶ Right from the start, you will support projects in the areas of strategy development along the value chain as well as in classic optimization topics in operational and tactical supply chain management
- ▶ Together with a strong team you solve complex client requests
- ▶ You actively participate in shaping our Growth Topic "Digital Value Chain Transformation"
- ▶ In cooperation with internal experts and external research institutions, you will work on the development of our consulting portfolio; including the analysis of trend-topics e.g. Industry 4.0, Smart Factory, IoT, etc

What makes you the perfect fit?

- ▶ You have successfully completed your (business-related) studies with excellent grades
- ▶ Ideally, you have gained initial experience in consulting or industry (internships or up to one year of work experience)
- ▶ You enjoy working closely with interdisciplinary and international teams
- ▶ You like complex tasks and you convince with your analytical skills and your structured thinking ability
- ▶ You are initiative, enthusiastic and you bring a high degree of client orientation
- ▶ Travelling a lot due to client assignments is no problem for you
- ▶ You are fluent written and spoken in German and English

Locations: Cologne, Mannheim, Munich, Hamburg

Junior Consultant Value Chain Strategy & Design (f/m/d)

What's your impact?

- ▶ From the beginning, you will work in a team on international projects along the entire value chain
- ▶ Within the projects, you will soon take on your own task packages, e.g. analysis, evaluation and optimization of business processes
- ▶ Accompanied by experienced experts, you will gradually gain more responsibility and work on the development of innovative topics and solutions
- ▶ You support the preparation of workshops and take part in customer meetings
- ▶ You will continuously expand your skills through regular training and education

What makes you the perfect fit?

- ▶ You have successfully completed your (business-related) Master's degree, ideally with a focus on supply chain management or logistics, with excellent grades
- ▶ Ideally, you have gained initial experience in a management consultancy or in industry (internships or up to one year of work experience)
- ▶ You like to work on complex tasks and you convince with your strong analytical skills and your structured way of thinking
- ▶ Initiative, persuasiveness, enthusiasm and a high level of customer orientation characterizes you
- ▶ You have excellent communication and presentation skills in German and English

Locations: Cologne, Mannheim, Munich, Hamburg

As a specialist we stand for leading-edge expertise, innovative concepts and solutions as well as for superior project quality and results.

Junior Consultant Supply Chain Planning (f/m/d)

What's your impact?

- ▶ Guide transformation within companies in your role as a supply chain management consultant for network and production planning.
- ▶ Develop process optimisation concepts and strategies for major corporations operating on the international stage.
- ▶ Guide projects from the elaboration of the supply chain strategy through to the ultimate realisation of your ideas.
- ▶ Steadily take on more responsibility in your projects and expand your skillset consistently and lastingly. Raise your expertise to the next level through regular training courses and seminars.

What makes you the perfect fit?

- ▶ Successfully completed business-oriented degree or any other degree course relating to the supply chain and logistics fields.
- ▶ Ideally first project experience.
- ▶ First experience working in supply chain management or production planning at a consulting firm or in a capacity similar to a consulting activity.
- ▶ You have already been involved in SAP-aided business analyses or conceptualising and designing business processes? – Fantastic, but not a must!
- ▶ First contact with SAP applications such as IBP, APO and/or S/4 HANA.
- ▶ Business-fluent German and exceptional written and spoken English skills – other languages are a bonus.
